

Team Challenge

Beat The Box Battle

Analogue team challenge
- with modern technology

All teams have different strengths. Bring them into play in a breathtaking hunt for solutions to creative, inspiring and entertaining challenges.

In less than 2 hours, each team must first find their assigned boxes in a particular order, open them one by one, and solve the challenge as a team.

16-20 tasks of a very different nature appear - everyone can see everyone along the way but solve different tasks simultaneously. - Each challenge must be completed within 6 minutes.

The challenges in the box are a mix of entertaining physical objectives, logical puzzles as well as musical and visual challenges. Add to that a set of internal FunFacts if you are up for it.

The team must optimize their collaboration and prioritize the tasks as best as possible to collect the most points to win the competition. And the pressure is on, because wrong answers equal minus points.

TeamChallenge is perfect as an active, practical, social and educational activity in English (or Danish), with built-in movement, at your own pace.
